

— GRAPPE —

The origins of Grappa are humble; it was created primarily to avoid wasting the Pomace - the skins, pips, stems and pulp left over from the wine-making process. The root of the word probably comes from words for pomace in the vulgar Latin of Northern Italy such as raspon, grapo, rappe, and graspa, the latter still used by many producers today.

The refinement of grappa from the 1970's on has developed hand in hand with the evolution of an elegant Italian cuisine and interest in boutique boubons and single-malt whiskies. Today almost every wine producer distills his own grappa (or has it distilled for him) often using precisely the same pomace used to make his most notable wine. (See Tignanello, Serpico, Ruggeri Prosecco and Sassicaia on our list). The number of grappas produced today is in the thousands.

At Pappardelle we have sourced some of the most distinctive grappas encountered over many years of tasting. Some of them are big names like Jacopo Poli, Nonino and Antinori, others less well known but still delicious, distinctive, and good value precisely because of that.

6. **Bardolino Classico 2016** £6.25/23.95
(Masi, Veneto) Corvina, Rondinella.
 A light red from vineyards that run alongside Lake Garda. Masi is one of the Veneto's top producers and this wine reflects their expertise and innovation. Easy on the palate yes, but still bursting with the tell-tale cherry notes of the Corvina grape. In terms of 'body', think Bardolino, then Valpolicella, then Amarone.
7. **Valpolicella Superiore 2016** £6.75/25.95
(Musella, Veneto) Corvina 6.5
 We are big fans of the Musella cantina, and now have 2 of their wines on our list. What impresses is how every wine they produce is a pure expression of the name on the label; here we have the finest and 'purest' expression of Valpolicella Superiore we have tasted. This is not Merlot, this is not Shiraz, this is not cheap 'Valpolly' plonk, this is a Musella Valpolicella!
8. **Refosco 2014/5** £6.95/27.75
(Santa Mragherita, Veneto) - Refosco - 6.5

A unique and very versatile wine posing no problems with food pairing; youthful flavours of cherry, strawberry and pomegranite. Highly recommended.
12. **Merlot Conte Brandolini 2014** £7.95/29.95
(Brandolini, Friuli) Merlot - 7
 At last a high quality organic Italian Merlot that won't break the bank. Great structure and finesse yet still clearly a merlot. Tannin a little more forward than is usual with this varietal, but perfectly balanced by its other qualities.

— RED WINE —

(Fabbiano, Tuscany) Sangiovese 7.5

(Musella, Veneto) - 7.5
 75% Corvina and Corvinone, 20% Rondinella and 5% Oseleta grapes are air dried for 4 months concentrating flavours. In January the grapes are crushed and the skins and must left with the juice for 12-15 days giving colour and tannin to the wine. Then transferred to French oak barrels. Superb example of this famous wine. Dry and fleshy, soft fruit, fantastic structure and complexity, and a long long finish.

 Fruit, spice and cinamon from this dynamic young wine.
24. **Paso Doblé 2015/6** £7.95/29.95
(Masi, Argentina) - Malbec, Corvina - 7.5
 Masi (Of the Veneto) have used their Argentinian vinyards to grow Malbec, which they blend with Corvina from the Veneto to produce unique, and completely delicious wine! The light cherry fruitiness of the Corvina sits over the structure and body of the Malbec.

13. **Amarone Valpolicella 2015** £39.50
(Le Vigne, Veneto) - 7.5 (Rondinella, Corvina and Molinara)
 Deep almost opaque in colour with a pronounced nose of morello cherries interspersed with layers of oak and spice. On the palate is rich and powerful with strong tannins and considerable texture and complexity. This is a powerful wine of great character. Individual parcels of Rondinella, Corvina and Molinara were selected for their concentration and ripeness then vinified separately. The grapes were dried, or 'raisined' in special drying lodges to reduce the water content and further increase concentration. This was then fermented dry and aged in oak before blending the individual parcels together before bottling. Recommended.

— GRAPPE —

The origins of Grappa are humble; it was created primarily to avoid wasting the Pomace - the skins, pips, stems and pulp left over from the wine-making process. The root of the word probably comes from words for pomace in the vulgar Latin of Northern Italy such as raspon, grapo, rappe, and graspa, the latter still used by many producers today.

The refinement of grappa from the 1970's on has developed hand in hand with the evolution of an elegant Italian cuisine and interest in boutique boubons and single-malt whiskies. Today almost every wine producer distills his own grappa (or has it distilled for him) often using precisely the same pomace used to make his most notable wine. (See Tignanello, Serpico, Ruggeri Prosecco and Sassicaia on our list). The number of grappas produced today is in the thousands.

At Pappardelle we have sourced some of the most distinctive grappas encountered over many years of tasting. Some of them are big names like Jacopo Poli, Nonino and Antinori, others less well known but still delicious, distinctive, and good value precisely because of that.
